CAREER OBJECTIVE

Electronics and Computer Engineering student with a 9.00/10 CGPA and a strong foundation in C/C++, Python, Data Structures & Algorithms, OOP, SQL and web development. Seeking an SWE internship to apply problem-solving skills, build reliable software, and grow through real-world engineering work.

EDUCATION

Thapar Institute of Engineering and Technology (TIET) | B.E. – Electronics and Computer Engineering | 2024–2028

CGPA: 9.00 / 10

TECHNICAL SKILLS

Languages: C, C++, Python, HTML, CSS, JavaScript

CS Fundamentals: Data Structures & Algorithms, OOP, Problem Solving

Databases: SQL, MySQL, File Management Systems

Tools: Git, Visual Studio Code, MATLAB

Soft Skills: Leadership, Team Collaboration, Event Management, Analytical Thinking

PROJECTS

Hospital Management System | Python, SQL, File Management

- Built a CLI-based hospital management application supporting add, delete, update and search operations for doctor and patient records.
- Implemented dual data persistence using file management and SQL databases for reliable record storage and retrieval.

Personal Portfolio Website | HTML, CSS, JavaScript | 2026

- Developed and deployed a responsive personal portfolio with interactive UI components, smooth animations and cross-device layouts.
- Applied clean front-end structure with attention to performance, accessibility and maintainability.

FPGA-Based Priority Encoder | Verilog HDL, Xilinx Vivado, Spartan-7 FPGA

- Designed and verified an 8-to-8 active-low priority encoder with prioritized input encoding and enable control.
- Simulated, synthesized and implemented the RTL design on a Spartan-7 FPGA for hardware validation.

RELEVANT COURSEWORK

Programming Fundamentals • Object-Oriented Programming • Data Structures & Algorithms • Problem Solving using C/C++ • Python Programming

LEADERSHIP & EXTRACURRICULARS

Core Team Member — Thapar Movie Club | 2024–Present

- Coordinated events with 20+ members, managing logistics and on-ground execution for screenings and cultural activities attended by 500+ students.

Event Organising Team — CineYouth | 2024–2025

- Supported logistics, audience engagement and cross-functional coordination for the college's flagship film/cultural event across two consecutive years.

ADDITIONAL

- Consistent academic performance with a CGPA of 8.75 in Electronics and Computer Engineering.
- Actively building practical skills in DSA, software development, and data analytics through coursework and self-driven projects.
- Proven ability to lead and collaborate in team-based environments through two years of active club and event management.
- Keen to apply programming knowledge and analytical thinking in real-world fintech and technology contexts at American Express.
